Project Titles & Description

Smart Internz

Sno	Project Title	Description
1	An Android Application for Keeping Up with the Latest Headlines	A sample blog post viewer that demonstrates the use of Compose with a typical Material app and real-world architecture.
2	A Sleep Tracking App for a Better Night's Rest	A sample sleep tracker app, showcasing how to create custom layouts and graphics in Compose
3	Wanderlust: A Personalized Travel Planning and Tracking App	A Compose implementation of the Crane Material study, a travel app that uses Material Design components and Material Theming to create a personalized, on-brand experience
4	ChatConnect - A Real-Time Chat and Communication App	A sample chat app that focuses on UI state patterns and text input.
5	Snack Squad: A Customizable Snack Ordering and Delivery App	A sample snack ordering app built with Compose.
6	Compose Input: A Demonstration of Text Input and Validation with Android Compose	A sample survey app that showcases text input, validation and UI state management in Compose.
7	Adaptive Mail: A Flexible Email Client App	A compose implementation of the Reply material study, an email client app that focuses on adaptive design for mobile, tablets and foldables
8	Owl-M: A Material Design Study App	A Compose implementation of the Owl Material study. The Owl brand uses bold color, shape, and typography to express its brand attributes: energy, daring, and fun.
9	Money Matters: A Personal Finance Management App	A Compose implementation of the Rally Material study, a financial app that focuses on data, charts, reusability and animations.
10	Podcast Plus: A Redux-Inspired Podcast App with Dynamic Themes for Android	A sample podcast app that features a full-featured, Redux-style architecture and showcases dynamic themes.
